ABOUT THE BOOK

Magnus Chase has always been a troubled kid. Since his mother’s mysterious death, he’s lived alone on the streets of Boston, surviving by his wits, keeping one step ahead of the police and the truant officers.

One day, he’s tracked down by an uncle he barely knows—a man his mother claimed was dangerous. Uncle Randolph tells him an impossible secret: Magnus is the son of a Norse god.

The Viking myths are true. The gods of Asgard are preparing for war. Trolls, giants, and worse monsters are stirring for doomsday. To prevent Ragnarok, Magnus must search the Nine Worlds for a weapon that has been lost for thousands of years.

When an attack by fire giants forces him to choose between his own safety and the lives of hundreds of innocents, Magnus makes a fatal decision.

Sometimes, the only way to start a new life is to die . . .

AEGIR: lord of the waves
AESIR: gods of war, close to humans
ALF SEIDR: elf magic
ANDSKOTI: the Adversary
BALDER: god of light; the second son of Odin and Frigg, and twin brother of Hod. Frigg made all earthly things swear to never harm her son, but she forgot about mistletoe. Loki tricked Hod into killing Balder with a dart made of mistletoe.

DRAUGR: Norse zombies

EIKTHRYMIR: a stag in the Tree of Laeradr whose horns spray water nonstop that feeds every river in every world

FENRIS WOLF: an invulnerable wolf born of Loki’s affair with a giantess. His mighty strength strikes fear even in the gods, who keep him tied to a rock on an island. He is destined to break free on the day of Ragnarok.

FOLKVANGER: the Vanir afterlife for slain heroes, ruled by the goddess Freya
FREY: the god of spring and summer; the sun, the rain, and the harvest; abundance and fertility, growth and vitality. Frey is the twin brother of Freya, and, like his sister, is associated with great beauty. He is lord of Alfheim.

Jormungand: the World Serpent, born of Loki’s affair with a giantess. His body is so long it wraps around the earth.
Jotun: giant
Loki: god of mischief, magic, and artifice; the son of two giants; adept with magic and shape-shifting. He is alternatively malicious and heroic to the Asgardian gods and to humankind. Because of his role in the death of Balder, Loki was chained by Odin to three giant boulders with a poisonous serpent coiled over his head. The venom of the snake occasionally irritates Loki’s face, and his writhing is the cause of earthquakes.
Lyngvi: the Isle of Heather, where Fenris Wolf is bound. The island’s location shifts every year as the branches of Yggdrasil sway in the winds of the void. It only surfaces during the first full moon of the year.
Magni and Modi: Thor’s favorite sons, fated to survive Ragnarok
Mimir: an Aesir god who, along with Honir, traded places with Vanir gods Frey and Njord at the end of the war between the Aesir and the Vanir. Odin: the “All-Father” and king of the gods; the god of war and death, but also poetry and wisdom. By trading one eye for a drink from the Well of Wisdom, Odin gained unparalleled knowledge. He has the ability to observe all of the nine worlds from his throne in Asgard; in addition to his great hall, he also resides in Valhalla with the bravest of those slain in battle.

PRE-READING ACTIVITY

As the pantheon of Norse lore may not be as familiar to students as Greek, Roman, or Egyptian mythology, consider building background information for students using the following activity.

**For Students**

To build a foundation for understanding Magnus Chase and the Gods of Asgard, work independently or with a small group to create a “Who’s Who of Norse Mythology” exhibit. Utilize the “Who’s Who” list of Norse gods, monsters, and creatures provided and select a research topic. Using the Internet and library resources, create a “biography” of the mythological figure that includes the following:

- Physical description
- Relationship to other important Norse characters
- Explanation of any significant connections to other mythological figures
- Any other important information (such as special abilities or powers).

You or your team should prepare a digital exhibit with a poster or slide show designed to inform others about your mythological figure as a means of creating background knowledge for the reading of *The Sword of Summer.*
EXPLORING THROUGH DISCUSSION AND WRITING

The following questions may be utilized throughout the study of Magnus Chase and the Gods of Asgard, Book 1: The Sword of Summer as targeted questions for class discussion and reflection, or alternatively, they can be used as reflective writing prompts.

1. In the opening of The Sword of Summer, Magnus states, “Yeah, I know. You guys are going to read about how I died in agony, and you’re going be like, “Wow! That sounds cool, Magnus! Can I die in agony too?” How does learning that Magnus dies set the tone for the novel? In what ways is learning this fact about his fate unique?

2. Early in the novel, readers learn that Magnus has been homeless for the past couple of years. He shares, “I don’t need your sympathy. I’m used to being laughed at. I’m definitely used to being ignored.” What do you think an experience like this has done to Magnus’s relationships with others and his general attitude? How does Magnus change throughout the course of the novel?

3. While thinking about his mother, Magnus shares, “After two years, my memories of her were still a minefield. I stumbled over one, and instantly my composure was blown to bits.” Why do his memories of his mother have such a profound effect on him? What can be inferred about his relationship with his mom?

4. Magnus shares, “Surt’s heat didn’t make me pass out. It just made me angry. I didn’t know who this fiery jack-hole was, but I knew a bully when I met one. First rule of the streets: never let a bully take your stuff.” Why does Magnus not initially understand the magnitude of danger he faces?

5. The author uses some unusual titles and first lines to introduce the chapters; which of them is your favorite? For what reason?

6. The last thing Magnus’s mother tells him is, “Magnus, run. Hide. Don’t trust anyone. I’ll find you. Whatever you do, don’t go to Randolph for help.” Why do you think she is so adamant that he stays away from his uncle? What does she fear for Magnus?

7. What were your first impressions of Blitz and Hearth? Were you surprised to learn who and what they are? What makes this duo so important to Magnus? In what ways do they prove themselves to be heroic?

8. Why do you believe Magnus awakens in the Grove of Glasir? What about this space allows him to feel comfortable?

9. What is it about Hotel Valhalla that Magnus finds so unusual? In your opinion, what are the best parts? What are the worst? Do you believe Magnus is really worthy of a place there?
10 Describe the Valkyries Gunilla and Sam. What are three things that you find most (or least) appealing about each of them? Are there any similarities between the two? What roles do you expect the Valkyries will play in further volumes of Magnus Chase and the Gods of Asgard?

11 Consider the list of favorite fantasy and horror authors Magnus mentions (Stephen King, Darren Shan, Neal Shusterman, Michael Grant, and Joe Hill). Are you familiar with the work of any of these other writers? If so, is there something written by them that you would recommend?

12 Why is Sam so distrusted by some of those in Valhalla? Do you believe they are right to feel that way? To what degree are we all really products of our families?

13 Magnus states, “In the old stories, Valhalla was for heroes who died in battle. I remembered that much. I definitely didn’t feel like a hero.” Why does Magnus feel himself unworthy of an afterlife in Valhalla? Do you think he’s right to think so? Why or why not?

14 In your opinion, do T.J., Mallory Keen, Halfborn Gunderson, and X prove themselves worthy friends to Magnus? If so, in what ways? What do you predict their roles will be in the further adventures of Magnus Chase?

15 Throughout the course of the novel, Magnus learns that the world as he knows it may never be the same. In what ways will it be better or worse for him? Have you had an experience that reshaped your life? In what ways have you changed due to this incident?

16 If you are familiar with Annabeth Chase from the Percy Jackson or Heroes of Olympus series, do you see any similarities between Magnus and his cousin? In what ways are they different? In what ways will having a closer relationship with Annabeth make life less challenging for Magnus?

17 In what ways does Magnus’s distress toward wolves make his task to keep Fenris Wolf bound so challenging? What are some things you believe he can do to overcome this fear?

18 The Sword of Summer features a number of characters that exhibit a variety of strengths. Who most impresses you with their skills/gifts? Explain your choice.

19 Consider the conclusion of The Sword of Summer and predict what adventures and obstacles will be in store for Magnus in the next installment of Magnus Chase and the Gods of Asgard.
CLASSEEEAEEOM CONNECTIONS
READING, WRITING, AND RESEARCHING EXTENSION ACTIVITIES

ARMED FOR BATTLE

In *The Sword of Summer*, preparing for battle is an ongoing pastime of those residing in Valhalla and a driving force to the characters in Magnus Chase and the Gods of Asgard. The Norse people were famous in history for being fierce warriors who terrified those who might fall to one of their raids. Using library and Internet resources, discover more about Norse warriors, being sure to investigate:

- Attire (what did these warriors wear?)
- Symbols of power
- Weapons
- Modes of transportation
- Additional facts you found fun or interesting

Investigate real longboats through a virtual visit to the Viking Ship Museum in Norway: khm.uio.no/english/visit-us/viking-ship-museum.

While virtually visiting the Viking Ship Museum, pay special attention to the three longboats on display (Gokstad, Oseberg, or Tune). Upon conclusion, demonstrate your understanding by creating an informational article about one of the boats that includes a description of the boat, where it was found, and what its discovery helps us understand about life in that time period.
Leif Eriksson: Explorer

Norse explorer Leif Eriksson’s visit to the edge of North America is regarded as a hugely monumental event in history. Using library resources and the Internet, learn more about Eriksson. Be sure to specifically discover the following:

- Who was Leif Eriksson?
- When and where did he live?
- What were his greatest accomplishments?
- What other interesting facts did you learn?

After gathering your information, select a digital tool of your choice to share your findings.

In the opening of The Sword of Summer, readers learn about Leif Eriksson’s statue in Boston and Uncle Randolph’s strong belief of a Norse presence and influence in the area. Beyond Eriksson, dig deeply to learn what you can about New England’s Viking connections, making sure to consider:

- Did the Vikings come to North America?
- What evidence (if any) is there?
- What makes their presence in North America important?
- What interesting or unusual things did you learn? Share your findings with your classmates.

Character Studies

The descendants of the Norse Gods have some of their ancestors’ attributes. Make a chart of the main characters, listing their traits, and then compare and contrast them with the ancestor they descended from. In what ways are the characters in The Sword of Summer the same as their ancestors? Use evidence from the text to show how they are similar. In what ways are they different? Encourage students to support their answers with text-based details.

On a basic level, The Sword of Summer can be seen as a book about the battle between good and evil, with most characters clearly identified as either one or the other. Create a chart that details and divides the novel’s characters into these two groups. For each classification, offer textual evidence as support. Are there any characters that might fit in both categories? What do you believe is the greatest benefit of examining good versus evil? How does good ultimately triumph in the novel? After creating your list, pair up with a classmate and compare your lists.
Throughout *The Sword of Summer*, Magnus Chase is supported and saved by Sam, Blitz, and Hearth. While considering the motivations for their actions or those of another important secondary character, complete a “Become a character” project. Consider using ReadWriteThink’s guidelines (found at readwritethink.org/lesson_images/lesson168/912-becomecharac.pdf). After choosing which character you will “become,” pick ten adjectives that best describe you (as that character). Next, select three other characters and describe them by listing ten adjectives for each of those characters (again, from the perspective of your chosen character). After checking to make sure your descriptions are appropriate and accurate, write a list for each character but make sure keep the identity of the character anonymous. Exchange papers with classmates and begin to identify the characters described and which character offered the description.

Readers see tremendous growth in Magnus’s character from the events that transpire in *The Sword of Summer*. In a journal entry, write about a single experience that made you stronger and wiser in some way. Perhaps you struggled through a difficult task or helped a friend with a problem. What did this experience teach you? Be sure to offer specific details about the experience.

*Magnus Chase*
The Norse developed a distinctive writing system known as runes, a system that combined ideographic writing symbols that were applied to the sounds of the Norse languages. Download copies of the Norse runic alphabet and provide materials for participants to create nameplates for themselves, write a note to their parents, or redesign the artwork for a favorite book, musician, band, or sports team using runes in the names.

**RUNIC WORD SCRAMBLE:** Use runic alphabet symbols for the following clues.

1. Norse sailing vessels known as حرف حرف allowed traders and raiders to sail both on the seas and up shallow rivers.

2. Norse explorers established colonies on the islands of حرف حرف and حرف.

3. Viking warriors fought fiercely and bravely in battle in hopes that they would be allowed into the great hall of the afterlife، حرف حرف.

4. While the Vikings' homelands were in Scandinavia, there were long periods of Norse rule over parts of حرف حرف، حرف حرف، and حرف.

5. While the Vikings were notorious warriors, they were also some of medieval Europe’s most active حرف حرف حرف.
The Norse cosmology was contained in a great tree, the world tree Yggdrasil. The various levels of the tree held what the Norse saw as nine realms of existence for all of the beings of the universe. How might you organize such a world? Provide participants with a reproducible sheet of the World Tree, and have them place each of the following realms within the tree in the place where they think it fits best. They might include illustrations to signify the realm. Once they are finished, have them compare their trees to an artist’s representation (many of these can be found online).

**Asgard (Level 1):** brilliantly lit realm of the civilized gods of order and stability, and of Valhalla, the hall of the great warriors of the human race.

**Vanaheim (Level 2):** idyllic realm of the gods of agriculture, hunting, and the bounty of nature.

**Alfheim (Level 2):** realm of the white elves, luminous demigods linked to magic and the beauty of nature.

**Midgard (Level 3):** the realm of man, which is encircled by a great serpent that both contains the human world and prevents direct intrusion from the surrounding realms. It is usually associated with the trunk of the tree.

**Bifrost:** the rainbow bridge that occasionally connects the worlds of Asgard and Midgard.

**Svartalfheim (Level 3):** realm of the dwarves and dark creatures such as trolls. They are associated with mining, blacksmithing, and caves.

**Jotunheim (Level 3):** realm of the frost giants, the ancient and wild creatures at the edge of Yggdrasil who are the greatest threat to both the gods and man.

**Niflheim (Level 3):** land of frost, mist, ice, and the mountainous cold of the Norse world.

**Muspellheim (Level 3):** land of fire, steam, and volcanoes.

**Well of Urd (Level 4):** ground spring of water that is the source of life for Yggdrasil.

**Helheim (Level 5):** the place of the dead, the unseen world usually associated with the roots of Yggdrasil.
